CHAPTER 05 — HYBRID & LAMINATE

# CORE

IN THE SPECIFICATION

# The working range. Performance first.

Core is Topdeck's working range — eight sub-ranges in two subsets, eighty-five colourways, specified where the floor is a working surface before it is a feature. Formats run from the 625mm herringbone block to the 2280mm long board, with a stone-pattern tile alongside. Each colour carries its order code; Avala and Lumière colours are pressed in more than one format, listed under each swatch. Full technical documentation per sub-range is available through Trade Enquiry.
