Castel Nuovo

Rooted in the traditions of European design, the **Castel Nuovo Herringbone Collection** highlights the enduring beauty and sophistication of oak presented in the timeless herringbone pattern. Each board is crafted to highlight the natural charm of European Oak, enhanced through a **specialised brushing process** that draws out its grain and texture. The result is a floor rich in character, adding depth and heritage-inspired elegance to interiors.

The distinctive geometry of **herringbone** introduces rhythm, movement, and balance, making it equally at home in traditional settings and modern environments. By accentuating natural tonal variations and unique knots, Castel Nuovo creates a dynamic surface that complements a wide range of colour palettes and design visions.

Each pre-finished 600mm x 120mm x 3/14mm T&G board is coated with a **premium UV lacquer ultra-matte finish**, ensuring lasting durability while preserving the warmth of natural oak. The **multi-ply core construction** provides stability under varying conditions, even over radiant heating systems, making Castel Nuovo as practical as it is beautiful.

Matching trims, stair nosings, and scotia accessories complete the collection, delivering a seamless flow across every detail of the space. With its blend of traditional craftsmanship, advanced engineering, and distinctive design, Castel Nuovo Herringbone truly embodies its name — a legacy in pattern that endures through time.
